Secretary,  
Department of Scientific & Industrial Research, Govt. of India  
President,  
Indian National Science Academy

## MESSAGE

I am happy to know that SusChemE, an International Conference focusing on Sustainable Chemistry & Engineering, will be organized for the first time in India by Institute of Chemical Technology (ICT) and partnered by MM Activ Sci-Tech Communications Pvt. Ltd.

I have always maintained that a balance between environment, ecology, economy, equity and ethics is the way forward. Development without destruction is the key. Not only sustainable development but sustainable consumption is the way forward.

I am, therefore, happy to see that the event will focus on better resource management and protection of the Environment.

As Sustainable Chemistry and Engineering will play a vital role in ensuring that clean-tech and green-tech become a way of life in the industry as well as the society. I am particularly happy that the SusChemE International Conference will be attended by global scientific fraternity and CEO's from top companies from across India.

I wish the SusChemE conference all the success.

( R.A. Mashelkar )
