MESSAGE

I am pleased to know that the Institute of Chemical Technology, India's world-class institution, is organizing the first edition of SusChemE, the International Conference on Sustainable Chemistry & Engineering in partnership with MM Activ Sci-Tech Communications Pvt Ltd. on October 8-9 in Mumai.

The rapidly growing economy and industrial landscape of India makes it imperative that we use sustainable solutions in the manufacturing which will protect the environment. I wish and hope that the Conference will serve as an ideal platform for the exchange of innovative ideas on making our development processes sustainable and inclusive.

I congratulate the Institute for its initiative in organizing the International Conference and wish the participants fruitful deliberations.

(Ch Vidyasagar Rao)
