### MESSAGE

I am pleased to know that SusChemE, an International Conference focusing on Sustainable Chemistry & Engineering will be organized for the first time in India by Institute of Chemical Technology (ICT) and partnered by MM Activ Sci-Tech Communications Pvt. Ltd.

The strong mission of SusChemE where R&D and Industry will deliberate on chemistry driven and engineering technological advances for sustainable practices in industry, will provide critical solutions for humanity and ensure sustainable development of modern societies.

In these times of rapid industrial development, I invite industry, academia, and the scientific fraternity to broaden their understanding in the areas of Sustainable Chemistry & Engineering and green technologies to protect the environment and also to add to the might of Indian economy. I also appeal them to create a unified force to work towards sustainable development in our nation.

I wish all participants a fruitful experience at SusChemE.

(Prakash Javadekar)
