MESSAGE

I am immensely pleased to know that Institute of Chemical Technology (IICT), partnered by MM Activ Sci-Tech Communications is organizing an International Conference on Sustainable Chemistry and Engineering.

The event of International Conference on Sustainable Chemistry and Engineering will educate us on how to reduce the usage of hazardous and toxic materials in Industrial process and thereby reduce toxic waste. The outcome of this kind of event will result in better health and well-being of our citizens.

I was glad to launch the event and unveil the first announcement brochure on 23rd June, 2015. It was my pleasure to visit the Institute of Chemical Technology to witness how a land of 16 acres would do wonders in development of NICHE technologies for energy and environment protection.

My best wishes to participants, members of managing committee and organizers for this and forthcoming International Conference on Sustainable Chemistry and Engineering and in all its future endeavors.

(Dr. Harsh Vardhan)
